## On-Demand Training

ISO 13485 Quality management systems — Requirements for regulatory purposes Awareness On-demand Training Course

February 2025

**Essential information about the course**

Quality Management systems (QMS) in the medical device world is critically important to the safety of patients around the world. BSI has developed a short session that makes you aware of what ISO 13485 is, why it is important and how your organization can use it to help maintain patient safety. It also considers how you are a vital piece of the jigsaw and what you can do to help your organization.

This course will help you understand what ISO 13485 is, why it’s important and how you can contribute to helping maintain patient safety in your organization.

**Our course agenda**

This is an online, interactive eLearning. Learning is self-study and you can progress at your own pace. You will have access to the course for 12 months.

On successful completion of your course, you’ll receive an internationally recognized BSI certificate

**Course duration**

30 minutes

**Make sure the course is right for you**
